On this date, _____, the above described dog has been sold to:

NAME(S) _____

ADDRESS _____

CITY _____ STATE _____ ZIP _____

PHONE _____

E-MAIL _____

For the sum of _____ Dollars (US funds–Cash/Certified Check/Paypal). Payment is in full, non-refundable except as noted below, in accordance with the terms of agreement as provided in this contract.

The breeder/seller guarantees this dog to be in good health at the time of sale.

- The purchaser agrees to take this dog to a licensed veterinarian of purchaser's choice and at the purchaser's expense within 72 hours of purchase for a health check.
- Should the dog be determined to be in ill health within 72 hours and the cause is clearly attributable to the seller by this veterinarian, presentation of a written diagnosis from said veterinarian must be submitted to seller within 24 hours of the determination by the veterinarian. The dog may be returned for refund of purchase price or for another dog of equal value, the choice of which is to be determined by the breeder/seller.
- This health guarantee covers genetic Hip Dysplasia and Progressive Retinal Atrophy (PRA) for this dog for two years (expires _____). To qualify for a replacement the following conditions must be met:
 1. In the event of unsoundness, verification from CERF and preliminary OFA must be received to determine that it is indeed a genetic problem and not the result of diet or environment. If it is so determined, the dog will be returned for a refund of purchase price or for another dog of equal value, the choice of which is to be determined by the breeder/seller. The buyer is responsible for any and all costs incurred by these examinations.
 2. If you and your vet determine it is in the best interest of the dog to be euthanized, the seller must be contacted beforehand.
 3. In the event of a death on or before the guarantee expiration, a necropsy report is required from a licensed vet stating that the dog passed as a result of a genetic default, and not caused by the purchaser, deliberate or accidental. In such case, the seller will provide purchaser with a replacement puppy of equal value from current or future litter when available. No monies will be exchanged.

4. The dog must not have been used for breeding until x-rays and preliminary eye-check is made. Guarantee is void if this is not done.
 5. Purchaser must pay the difference between initial purchase price and the price of a replacement if applicable. All shipping charges are the responsibility of the buyer.
 6. If the purchaser chooses to keep an unsound dog, the dog must be spayed or neutered at the purchaser's expense and the registration papers returned to the breeder/seller. No refund or exchange will be made if purchaser chooses to maintain ownership.
 7. This guarantee is offered to the original purchaser only. If a sale or transfer of this dog becomes apparent, this guarantee is null and void.
- Any veterinarian's diagnosis will be subject to confirmation by a veterinarian chosen by the breeder/seller and at the breeder's/seller's expense. Should such veterinarian not concur with the diagnosis, the matter shall be presented to a third veterinarian mutually agreed upon by the breeder/seller and the purchaser within five (5) days. The expense of the third veterinarian will be split equally between the breeder/seller and the purchaser. The decision of the third veterinarian is binding.
 - Replacement dogs are breeder's choice of equal quality as soon as possible.
- The described dog has been purchased from litter owner under agreement and understanding that said dog is eligible for limited registration only and will not be bred. Offspring will not be eligible for AKC registration.
- This dog is being sold with full registration with the additional cost of _____ (reflected in stated sale price).
- Puppy must be registered with Sandyland prefix.
 - Buyer agrees to allow puppy to mature before being bred (9 months for males, 18 months or third head cycle for females).
 - Once a dog has been bred, our health guarantee is no longer valid, so we recommend waiting until the age of two to breed this dog and/or getting the appropriate certifications on eyes and hips.
 - We believe this dog is of breeding quality at time of sale, but make no guarantee of fertility or future health that may prohibit a successful breeding.

Signature and Acceptance of Purchaser: _____ Date: _____

Signature and Acceptance of Seller: _____ Date: _____

Note to buyer: The term "breeder" used in this contract refers only to the fact that we are responsible for breeding two dogs for the resulting litter. California state law defines a breeder as "a person, firm, partnership, corporation, or other association that has sold, transferred, or given away all or part of three or more litters or 20 or more dogs during the preceding 12 months that were bred and reared on the premises of the person, firm, partnership, corporation, or other association." We currently choose to only have one or two litters per year.
